

An award-winning software development, systems engineering, and information technology firm.

Rite-Solutions helps government agencies convert data into valuable intelligence and a competitive edge. Our award-winning software development, cybersecurity, and systems engineering innovations help our clients achieve an Information Advantage®.

Providing innovative solutions and an Information Advantage® to government agencies for over two decades.

Since opening its doors in 2000, Rite-Solutions has been at the forefront of supporting Navy undersea warfare initiatives. Our reputation as an innovative, agile, and rigorous systems-engineering firm is a testament to our commitment to excellence.

Though the company's origins begin with the Naval Undersea Warfare Center (NUWC), today, we also serve other Navy customers such as the Naval Sea Systems Command (NAVSEA), Naval Surface Warfare Center (NSWC), Program Executive Office Submarines (PEO SUB), Program Executive Office Manpower, Logistics and Business System (PEO MLB). Rite-Solutions also offers its expertise to other federal agencies, including Citizenship and Immigration Services, Customs and Border Protection, Federal Emergency Management Agency, and more.

Award-winning culture

With an employee-centric culture based on being One of F.E.W. (Friends Enjoying Work), Rite-Solutions' focus on respect, collaboration, trust, integrity, creative thinking, and outcome-focused behaviors enables our employees to consistently deliver impressive results and exceptional value to those we are privileged to serve. This unique, award-winning culture enables us to leverage the "collective genius" of our team to develop innovative solutions for our customers.

Federal Contract Vehicles

Rite-Solutions offers several Federal Government contract vehicles to help our customers address their requirements. They include: blanket purchase agreements, indefinite delivery indefinite quantity contracts and GSA vehicles.

Uniquely Qualified to Serve Our Customers

By design, Rite-Solutions is an agile organization that ensures quick, decisive customer-focused action. We also have an impressive intellectual concentration of engineers, scientists, and technologists not typically found in small firms. Equally impressive are the standards we use to plan, manage, and execute projects as a CMMI-DEV V2.0 Maturity Level 3, ISO 27001, ISO 9001, and ISO 14001 certified organization.
